Justin Hatfield

Why concrete pools?

At Naughtons we build concrete pools to suit your lifestyle. The beauty of concrete pools is the possibilities are endless. From a courtyard to a resort, we can provide you with a pool that will allow you years to relax and enjoy your own backyard.

Naughtons build individually designed and engineered concrete pools. The only limitation is your imagination. Any thoughts or ideas you have can simply be created with the latest 3-Dimensional computer program, so you can visualize your pool concept by taking a "virtual tour".

Naughtons are locally owned, award winning pool, spa and landscape designers and have built over 1000 pools in Victoria and New South Wales. We are recognised as leaders in the pool industry by the Swimming Pool and Spa Association of Victoria.

We pride ourselves on making the experience of building your pool a stress-free one, planning and managing each project from conception to construction and completion. We will provide you with an honest, up-front and realistic account of the total project cost which can include paving, fencing, landscaping and water features. We have a dedicated landscaping team, to assist you in putting the finishing touches in and around your pool area. We use the most efficient and reliable equipment on the market and are licenced Paramount PCC 2000 Infloor cleaning dealers. We can exclusively install the most advanced cleaning system specifically designed for each pool, so you can spend less time on pool maintenance and more time enjoying yourself.

Our service to you continues long after the pool is installed. You will have peace of mind with our prompt and dedicated service team.

Speak to us at Naughtons for your lifestyle change. Phone or visit our stores and speak to one of our friendly staff about your concrete pool.

"After using Naughtons to build our first pool for the resort 12 years ago, it was an easy decision to choose the same company to build our new concrete pool at Perricoota Vines. It has already proven to be a great asset to our resort facilities along side our new Lakehouse Functions and Conference centre. The Naughtons team managed the project in a professional manner and delivered it on time, ready for our busy summer period."

- Barry Donchi of Perricoota Vines Retreat, Moama.
